

Mavis Evans, lifelong storyteller

We provide the very highest standards of care for the elderly across ten homes within the South West.

Our homes are predominantly character buildings with modern extensions, conservatories or sun lounges and well kept gardens and grounds. With a comprehensive staff training programme, we ensure that all residents receive the very best attention and can offer specialist services for dementia and disabilities. We aim to offer as much choice as we can to ensure our residents keep enjoying their lifelong passions while in our care.
